

Anti-Tax Evasion Statement

AlixPartners is a results-driven global consulting firm that specializes in helping businesses successfully address their most complex and critical challenges. As such, our work is complex and fast-moving.

The AlixPartners group comprises a number of separately constituted and regulated legal entities that provide advisory services across several jurisdictions. We employ over 2,000 people world-side and operate throughout Europe, the Middle East, the Americas, and Asia.

In everything we do, we are committed to both to our clients' and our Firm's success and actively aid to foster a culture that values integrity and ethical behavior. As tax evasion is a crime that deprives governments of money needed to fund vital public services, we are committed to implementing and enforcing effective systems to counter tax evasion facilitation.

This means we:

- apply the standards outlined in our Code of Conduct to our work;
- refuse to aide, facilitate or support actions which assist in evasion of tax liabilities, whether by committing a tax evasion offence or committing a tax evasion facilitation offence; and
- implement effective controls to prevent and detect tax evasion facilitation.

We expect the same high standards from our clients and other business partners.
